Vending Machines Special Terms and Conditions

Purpose:

Establish a contract from the items listed for all state agencies. Contract prices are available to all local governmental agencies and schools.

Delivery Time Frame:

All items ordered must be delivered to the "Ship To" address shown on the P.O. within thirty (30) days of vendor's receipt of order.

Delivery and Installation:

Bid prices are to include cost of transportation, unloading, installation and complete removal of debris from installation site. Drop-shipments are not acceptable. Title will change upon receipt of satisfactory delivery and installation. Delivery and installation is to be completed within 30 days of receipt of purchase order.

F.O.B. Destination:

F.O.B. destination is the location where merchandise is delivered and unloaded on a receiving dock, if available, to any state or local government agency and the change of title takes place. The vendor is liable for freight charges, risk of loss or damage to the merchandise up to the destination.

Return Freight & Storage Charges:

The vendor is responsible for any storage and/or return freight charges incurred by the state as a result of vendor's failure to conform to product specifications.

Default:

When a vendor defaults on a contract/purchase order, the state can procure the goods or services from other sources and hold the vendor responsible for any excess in price/handling. The vendor may be barred from bidding for an indeterminate period.

Contract period:

Establish a 12 month contract with an option to extend for a second, third, fourth, and fifth 12 month period with the same pricing, terms and conditions. The second, third, fourth, or fifth 12 month period, if agreed by both parties, would begin the day after the first, second, third, or fourth 12 month period expires. Any successive extension must have written approval of both the state and vendor no later than 30 days prior to expiration of the previous 12 month period.

Price Changes:

Price increases not to exceed 5% may be allowed after each 12 month contract renewal. Any requested price increase must be substantiated by documentation from the manufacturer.

The buyer shall be notified immediately if there are any price decreases affecting a state term contract. The state shall receive the benefit of the decrease as soon as possible in accordance with the written notification from the contract vendor.

Warranty Information:

Equipment shall be warranted for a minimum of twelve (12) months. Warranty shall cover all parts, labor and freight cost associated with repairs and/or replacement of defective equipment. Accidents, misuse and negligence are not covered by this warranty. The warranty shall commence on the date the equipment is put into service by the using agency. Vendor will use whatever means required to facilitate this warranty, and will insure total satisfactory performance to the using agency.

Discontinued equipment:

16000000102	Document Phase Final	Document Description T280 - Vending Machines	Page 15 of 15
-------------	--------------------------------	--------------------------------------------------------	-------------------------

If any equipment is discontinued during the contract period, replacement equipment must be equal to or greater in performance, features and function, and at the same price, terms and conditions as stated in the bid, as available from the manufacturer.

Non-appropriation of funds:

Continuation of any agreement between the State and a bidder beyond a fiscal year is contingent upon continued legislative appropriation of funds for the purpose of this bid and any resulting agreement. Non-availability of funds at any time shall cause any agreement to become void and unenforceable and no liquidated damages shall accrue to the state as a result. The State will not incur liability beyond the payment of accrued agreement payment.

Proration:

Any provision of a contract resulting from this bid to the contrary notwithstanding, in the event of failure of the State to make payment hereunder as a result of partial unavailability, at the time such payment is due, of such sufficient revenues of the State to make such payment (proration of appropriated funds for the State having been declared by the governor pursuant to Section 41-4-90 of the Code of Alabama 1975), the contractor shall have the option, in addition to the other remedies of the contract, of renegotiating the contract (extending or changing payment terms or amounts) or terminating the contract.
