

WORK SCOPE  
TUNNEL TILE REPLACEMENT

Furnish all labor, equipment, tools and transportation required to remove and replace damage ceramic wall tile in the George C. Wallace and Bankhead Tunnels, per the following:

- 1) The work will be performed on an as needed basis.
- 2) The minimum number of tiles to be replaced at one time will be 100.
- 3) The tile will be placed in a manner that will restore the structure to its original condition.
- 4) All material used shall be of the kind and quality consistent with the trade practice for such work and shall comply with all local codes.
- 5) All labor used shall be well experience in this type work.
- 6) All work will be accomplished between the hours of 9:00 p.m. Sunday through 5:00 a.m. Friday morning.
- 7) Work will not be permitted on the following Holidays or the day before these Holidays, Fourth of July, Labor Day, Thanksgiving Day, and Christmas Day.

NOTE: Traffic control will be furnished by the state.  
The tunnel tile will be furnished by the state.

The quantity is an estimate only and in no way obligates the state to have this work accomplished.
